

# Estate filtration retrofit for stable pressure and taste.

WHERE THE BEST GET BETTER

A multi-unit estate in Lagos required improved taste, reduced scaling, and predictable maintenance. ASE Consultings delivered staged filtration, softening, and a new service plan within 10 days.

SERVICE IMPACT

**60% fewer callouts**

Within 90 days

LAB TURNAROUND

**48 hours**

Sampling to report

INSTALL LEAD TIME

**10 days**

Assessment to handover

PROJECT SUMMARY

**Challenge**

Scale build-up and intermittent municipal pressure led to poor taste and frequent maintenance callouts across the estate.

**Solution**

Installed staged media filtration, softening, and UV disinfection with storage balancing and a preventive service plan.
